# REGISTRATION IN MEDICINE

## The Commonwealth of Massachusetts

BOARD OF REGISTRATION IN MEDICINE,  
STATE HOUSE, November 30, 1924.

To WILLIAM F. CRAIG, *Director of Registration.*

SIR: The Board of Registration in Medicine respectfully submits the following as its annual report for the year ending Nov. 30, 1924.

### FINANCIAL STATEMENT FOR THE FISCAL YEAR.

#### Appropriations.

Salaries of members of Board	\$4,300.00
Salaries of members of Chiropody Department	600.00
Salaries of office assistants	2,100.00
Additional appropriations for office assistants	265.09
Incidental expenses of Board and Department	3,000.00
	<u>\$10,265.09</u>

#### Expenditures.

Salaries of members of Board	\$4,300.00
Salaries of members of Chiropody Department	600.00
Salary of executive clerk	1,710.00
Extra emergency clerical service	457.09
Incidental expenses of Board and Department	2,044.46
	<u>\$9,211.55</u>

#### Receipts.

304 examination fees (medicine) at \$25 each	\$7,600.00
202 fees for limited hospital registration at \$5 each	1,010.00
289 student registration fees at \$1 each	289.00
19 examination fees (chiropody) at \$15 each	285.00
1 registration fee (chiropody) at \$10 each	10.00
78 re-examination fees (medicine) at \$3 each	234.00
Fees for certified statements (medicine)	126.00
Fees for chiropody renewals	928.00
	<u>\$10,482.00</u>

Since the establishment of the board in 1894, the fees received from applicants for registration, renewals and certified statements, and interest on deposits, and paid into the treasury of the Commonwealth, amount to \$211,453.56. The expenditures of the board amount to \$203,756.76. In dollars and cents, therefore, the Commonwealth has received \$7,696.80 in excess of the total amount expended.

For the year ending November 30, 1925, the board recommends an appropriation of \$4,300.00 for salaries of the medical board, \$600 for salaries of the chiropody department, and \$3,000 for incidental expenses of board and department. No estimate is made for clerical expenses as that item is, in the future, to be included in the budget of the Director of Registration.

Two hundred and two limited registrations and six registrations by virtue of registration with the National Board have been granted. The number of persons applying for registration through examination, for the first time this year, is 304, all of whom have been examined except 2. In addition, there were 78 who had failed in previous examinations, making the total of applicants examined 380, as shown in the following table, with percentages:—

Applications for registration must be made upon blanks furnished by the Board, and must be accompanied by two photographs of the applicant; said photographs must be size 3-1/4 by 4-1/4 inches. One of the photographs must be certified by the dean or registrar of the medical school from which the applicant is graduated, or by a person authorized to administer oaths, and who is known to this Board. All applications, together with the required fee of \$25, and the required vouchers, must be filed not less than seven days before the date of the examination.

In receipt of an application properly executed, a ticket of admission is issued to the applicant, showing his application number and the date and place of the examination. One of the photographs submitted with the application is also returned with the card, and the number of the application is designated on the photograph, and both card and photograph must be presented by the applicant at the time of the examination. Cards are issued to rejected applicants entitled to a re-examination upon payment of a fee of \$3, when applied for not later than Tuesday of the week next preceding the date of an examination.

Three examinations yearly are provided by law, beginning, respectively, on the second Tuesday in March, July and November. Extra meetings for conducting examinations have been held beginning on the second Tuesday in May and September.

The examinations are conducted in English only, as required by law, and are intended to cover substantially the instruction given in the high-grade medical schools in this country. The subjects on which the examinations are principally conducted are anatomy and histology, pathology, bacteriology, surgery, obstetrics and gynecology, diagnosis and therapeutics, pediatrics and toxicology, psychiatry, biology, chemistry and physics.

The board feels that the amount of time required of its services, as compared with that required at the time of its organization, warrants an increase in the salaries of its members. Since its organization in 1894, there has been no change in salaries of board members, and therefore recommends an increase.

In July, Dr. George H. Janes of Westfield resigned, and Dr. John M. Birnie of Springfield, was appointed to fill the vacancy.

By enactment of Chapter 239, approved April 12, 1924, additional work was added to the department, and a small additional appropriation for clerical service was made to cover the initial work. The legislation referred to reads as follows:

## CHAPTER 239

### AN ACT REGULATING THE POSSESSION OF HYPODERMIC INSTRUMENTS.

Be it enacted, etc., as follows:

SECTION 1. Section two hundred and nine of chapter ninety-four of the General Laws, as amended by section one of chapter five hundred and thirty-five of the acts of nineteen hundred and twenty-two, is hereby further amended by inserting after the word "physician" in the tenth line the words: or dentist,—by inserting after the word "articles" in the thirteenth line the words:—, or the holder of a permit issued under section two hundred and nine A,—and by inserting after the word "physician" in the twenty-first line the words:—or dentist, the holder of a permit issued under section two hundred and nine A,—so as to read as follows:—Section 209. No person, not being a physician, dentist, nurse or veterinarian registered under the laws of this commonwealth or of the state where he resides, or a registered embalmer, manufacturer or dealer in embalming supplies, wholesale druggist, manufacturing pharmacist, registered pharmacist, manufacturer of surgical instruments, official of any government having possession of the articles hereinafter mentioned by reason of his official duties, nurse acting under the direction of a physician or dentist, employee of an incorporated hospital acting under the direction of its superintendent or officer in immediate charge, or a carrier or messenger engaged in the transportation of such articles, or the holder of a permit issued under section two hundred and nine A, shall have in his possession a hypodermic syringe, hypodermic needle, or any instrument adapted for the use of narcotic drugs by subcutaneous injection. No such syringe, needle or instrument shall be delivered or sold to, or exchanged with, any person except a registered pharmacist, physician, dentist, veterinarian, registered embalmer, manufacturer or dealer in embalming supplies, wholesale druggist, manufacturing pharmacist, a nurse upon the written order of a physician or dentist, the holder of a permit issued under section two hundred and nine A, or an employee of an incorporated hospital upon the written order of its superintendent or officer in immediate charge. A record shall be kept by the person selling such syringe, needle or instrument, which shall give the date of the sale, the name and address of the purchaser and a description of the instrument. This record shall at all times be open to inspection by the department of public health, the boards of registration in medicine, veterinary medicine, and pharmacy and the board of dental examiners, authorized agents of said department and boards, and police authorities and police officers of towns. Whoever violates any provision of this section shall be punished by a fine of not more than one hundred dollars or by imprisonment in a jail or house of correction for not more than two years, or both.

SECTION 2. Said chapter ninety-four is hereby further amended by inserting after section two hundred and nine, the following new section:—Section 209A. A registered physician may, subject to the rules and regulations of the board of

registration in medicine, issue to a patient under his immediate charge a permit to have in possession any of the instruments specified in the preceding section. Such permits shall be issued upon blanks furnished by said board and any permit so issued may be revoked at any time by it. (Approved April 12, 1924).

The board has been in actual session thirty-three days; has conducted nineteen hearings; revoked seven certificates of registration, and has given consideration to complaints which, upon investigation, did not come under the jurisdiction of this department.

Aside from the nineteen hearings given as the result of complaints received on various grounds, the board has called before it for a conference, all the registered graduates of the St. Louis College of Physicians and Surgeons, but only one registration has been revoked as a result of these conferences. The board has also had before it every applicant who is a graduate of the St. Louis College of Physicians and Surgeons and of the Kansas City College of Medicine and Surgery, before admitting the applicants to examination, and their credentials have been carefully considered.

The investigation of the irregularities of the methods of the lower grade schools has been carried on, and many points noted which should be remedied. The board has not recommended changes in the law at this time to remedy the conditions disclosed, as it understands remedial measures are to be proposed in the report of the Special Recess Committee appointed to look into registration matters in general. Under our present law, this board, must, under certain conditions accept graduates from Class C schools, which are debarred in most states. The board should be given more discretionary power under the law. One of the men whose certificate has been revoked, is a graduate of the St. Louis College of Physicians and Surgeons, and his statements and credentials were so plainly false that the board felt revocation was in the interest of public welfare.

#### REGISTRATION OF CHIROPODISTS.

The Board has examined nineteen applicants for registration, all of whom have been registered. One was registered by a Special Act of Legislature. Each examination has occupied one full day. The written exercises are conducted in the State House, and the practical work under the supervision of Messrs. Kenison and Pettingill, at the School of Chiroprody. Each applicant is required to provide his own equipment for the practical work and to furnish a patient upon whom to demonstrate his fitness for practice.

Doctors Calderwood, Prior and Corr have represented the Board of Registration in Medicine, and the Messrs. Kenison and Pettingill have acted as the Chiroprodist Assistants appointed by the Board.

A new system for the renewal of chiroprodist registration has been established, and we find that it is superior to the one used in former years. Four hundred and sixty-four chiroprodists have renewed their registration certificates for the year 1924, as required under the section providing for annual renewal.

A list of the physicians and chiroprodists registered during the year will be found in the Appendix.

Respectfully submitted,

SAMUEL H. CALDERWOOD, M. D., *Chairman.*

CHARLES E. PRIOR, M. D., *Secretary.*

JOHN M. BIRNIE, M. D.

FRANCIS X. CORR, M. D.

HENRY L. HOUGHTON, M. D.

FRANK M. VAUGHAN, D. O.

ROYAL P. WATKINS, M. D.

## APPENDIX.
